The BLADE Series – **BLADE 1260** and **BLADE HD** Creative LED Strips are now available for ultimate creative use. The BLADE Series provides another option for visual eye-catching excitement to any venue with a wide variety of applications. **BLADE 1260** or **BLADE HD** can be used to deliver countless creative looks in long lines or faceted curves. You can place BLADE in virtually any layout (horizontal, vertical, diagonal etc.) because of its pixel-level mapping accuracy.

The BLADE Series provides high brightness of 6,000 nits and tight pixel pitch in a slim, lightweight yet rugged package – perfect for use on numerous indoor and outdoor applications.

**BLADE™ 1260**

The **BLADE™ 1260** combines the latest LED technology with a built-in AC power supply. BLADE can be daisy-chained up to 64 units in a single power/data feed – that is over 38 meters (or 125 feet) in a single feed.

**BLADE™ HD**

The **BLADE™ HD** provides even greater resolution. Combining the latest LED technology with a built-in AC power supply, BLADE HD can be daisy-chained up to 14 units with a single power/data feed.

**Key Benefits:**

- High pixel density (2,560) and 12.5 mm pitch, creative high resolution lines displays are possible
- Bright – with 6,000 nits, it can be used for both indoor/outdoor applications
- Creative/Flexible to use, unlimited mapping capability allows for creative design
- Easy set-up/fast to rig and connect. **BLADE 1260** can be daisy-chained up to 64 units on a single feed and single connector. **BLADE HD** can be daisy-chained up to 14 units on a single feed and single connector so the BLADE Series can go together fast
- Rugged, weather proof – IP65 rating allows BLADE to be used in outdoors, rain or shine.
